

## *Rodger, Bonnie & Family*

Rodger and Bonita are compassionate individuals who feel a strong calling to adopt a child in need of a forever family. Rodger and Bonita are experienced parents who appear to understand and embrace the unique challenges that often accompany caring for children who have been abused and neglected.

When visiting with Rodger and Bonita, it is apparent that the couple thoroughly enjoys one another and has a strong, stable, marriage that is based on mutual respect. Rodger and Bonnie appear to delight in their roles as parents and both beam with pride when speaking about the talents and gifts of their sons. Rodger and Bonita believe strongly in the importance of family togetherness and have rules and routines that reflect this belief. The family spends quality time together participating in church events, outdoor activities, or traveling around the country in Rodger's semi. It is the observation of this worker that Rodger and Bonita truly know their children well and are aware of their individual strengths and challenges; a competency that will suite them well as adoptive parents. It appears that Rodger and Bonita's sons will welcome additional children into their family and will serve as positive role models to younger siblings.

This worker is pleased to recommend that Rodger and Bonita be approved to adopt one to two children, male or female, of Caucasian, Asian, Native American, or Hispanic descent, age 0-7. Rodger and Bonita possess the knowledge, skills, and ability to successfully parent a child with mild to moderate emotional, social, educational, and medical needs.
